Your patch testing results indicate that you have a contact allergy to **7-Ethylbicyclooxazolidine**. It is important that you familiarize yourself with this chemical and take steps to avoid coming in contact with it.

### What is 7-Ethylbicyclooxazolidine and where is it found?

This is a bactericide used in products such as paints, oil fluids, inks, emulsions, non-food contact adhesives, metalworking fluids and building/industrial products. It is also used as a preservative in cooling fluids. Further research may identify additional product or industrial usages of this chemical.

### What else is 7-Ethylbicyclooxazolidine called?

This chemical can be identified by different names, including:

- **Bioban CS 1246**
- **1-Aza-3,7-Dioxa-5-Ethyl-Bicyclo-(3,3,0)-Octane) (Bioban CS 1246)**
- **Neosyn TX**
- **Oxaban E**
- **Oxazolidine-E**
- **Paramel TX 50**
- **Zoldine ZE**

This may not be a complete list as manufacturers introduce and delete chemicals from their product lines.

### THINGS YOU CAN DO TO HELP MANAGE YOUR CONTACT ALLERGY

1. **Be vigilant … read the product label.** Always take the time to read the ingredient listing on product packages. This should be your first step each time you purchase a product as manufacturers sometimes change product ingredients. If you have any concerns ask your pharmacist or your doctor.

2. **Test the product first.** If you have purchased a new product you should test it on a small skin area to see if you get a reaction before using the product on larger skin areas.

3. **Advise people you obtain services from of your contact allergy.** This should include people like your pharmacist, doctor, hairdresser, florist, veterinarian, etc.

4. **Inform your employer if the source of your contact allergy is work related.** You should identify the specific source of the chemical and take the necessary steps to avoid further exposure. Protective wear may be adequate or you may need to make a change in your work activities. Both you and your employer benefit when the cause of your occupational dermatitis is eliminated.

5. **“Google” it.** The internet is an excellent source of ingredient information that can be searched by product, by company and by specific chemical. Some helpful independent internet links include:
   - [www.cosmeticsinfo.org](http://www.cosmeticsinfo.org) (Cosmetic Industry Category Ingredient Database)
   - [www.whatsinsidejohnson.com](http://www.whatsinsidejohnson.com) (information on all S.C. Johnson product ingredients)

If you have any future contact dermatitis concerns or questions, please call the doctor's office.
