

# Stannous Chloride

(S-013)

Your patch testing results indicate that you have a contact allergy to **Stannous Chloride**. It is important that you familiarize yourself with this chemical and take steps to avoid coming in contact with it.

## **i** What is **Stannous Chloride** and where is it found?

This chemical is used for the tinning of steel in the making of tin cans as well as a food additive to some canned and bottled foods where it serves as a color-retention agent and antioxidant. It is also used in production of ornamental glass called aurene glass. Further research may identify additional product or industrial usages of this chemical.

## **i** What else is **Stannous Chloride** called?

This chemical can be identified by different names, including:

*C.I. 77864*

*Stannous chloride*

*Stanno chlor*

*Tin dichloride*

*Tin(II)Chloride*

*Tin(II) Chloride (1:2)*

*Tin protochloride*

This may not be a complete list as manufacturers introduce and delete chemicals from their product lines.

## THINGS YOU CAN DO TO HELP MANAGE YOUR CONTACT ALLERGY

- Be vigilant ... read the product label.** Always take the time to read the ingredient listing on product packages. This should be your first step *each* time you purchase a product as manufacturers sometimes change product ingredients. If you have any concerns ask your pharmacist or your doctor.
- Test the product first.** If you have purchased a new product you should test it on a small skin area to see if you get a reaction before using the product on larger skin areas.
- Advise people you obtain services from of your contact allergy.** This should include people like your pharmacist, doctor, hairdresser, florist, veterinarian, etc.
- Inform your employer if the source of your contact allergy is work related.** You should identify the specific source of the chemical and take the necessary steps to avoid further exposure. Protective wear may be adequate or you may need to make a change in your work activities. Both you and your employer benefit when the cause of your occupational dermatitis is eliminated.
- “Google” it.** The internet is an excellent source of ingredient information that can be searched by product, by company and by specific chemical. Some helpful independent internet links include:
  - [www.nlm.nih.gov/pubs/factsheets/factsheets.html](http://www.nlm.nih.gov/pubs/factsheets/factsheets.html)** (U.S. Dept. of Health and Human Services; alphabetic list)
  - [www.nlm.nih.gov/pubs/factsheets/factssubj.html](http://www.nlm.nih.gov/pubs/factsheets/factssubj.html)** (U.S. Dept. of Health and Human Services; subject list)
  - [www.cosmeticsinfo.org](http://www.cosmeticsinfo.org)** (Cosmetic Industry Category Ingredient Database)
  - [www.whatsinsidescjohnson.com](http://www.whatsinsidescjohnson.com)** (information on all S.C. Johnson product ingredients)

If you have any future contact dermatitis concerns or questions, please call the doctor's office.
